What is Hoopla?

Hoopla Digital is a new free service offered by Media-Upper Providence Free Library that allows adult DCLS cardholders in good standing to borrow and enjoy movies, full music albums, television episodes, audiobooks, eBooks, comics & graphic novels all from one website.

How do I access and register for Hoopla?

Mobile users may download the Hoopla digital app from the Google Play or Apple Store. Web users may visit www.hoopladigital.com.

To register, you just need an active valid DCLS library card (fines under \$20) and an email address. As soon as you are registered, you are able to browse and borrow content.

What Devices work with Hoopla?

Hoopla is a free website you can access on your computer. The Hoopla Digital app works on most Android devices that are running 4.1x & up, which includes the newest Kindle Fire HDX's, along with iOS devices that are running IOS 8 & up.

How do I use Hoopla?

Simply find a title of interest and click "borrow." On a mobile device or computer, you may enjoy while connected to the internet by clicking "play." If using a mobile device (the app), you can download the title by selecting "download." Downloaded material may be enjoyed offline (i.e. while traveling).

All content is always available on Hoopla. No need to wait or to place a hold on any content.

How many can I borrow and how long may I keep titles that I borrow?

There is a monthly 8 checkouts per month limit. Borrowed titles will automatically be returned once the lending period ends. There are never any fines or overdue items! The lending periods are as follows:

Movie or Television show – 3 days

Music – 7 days

Book (audio, eBook or Comic) – 21 days

How is Hoopla unique when compared to other digital services?

Only service with instant access to movies, tv shows, music and books all in one app/website

- Only service that allows the option to stream or download content on a mobile device, without having to purchase material
- Interface requires just one quick, easy registration process – no extra steps or software
- All content is immediately available (no holds, no waiting) "Simultaneous Access"
- Nearly 500,000 titles (and growing every day!)
- Available exclusively for libraries – no consumer platform
- Cloud-based interface = borrowed material and playback automatically syncs from one device to the next
